

## Tenbps – Sample APIs

### Steps:

1. For Login, use the following credentials:
  - a. User-id: KrystalA
  - b. Password: 944a8b59b0c74589c4e37e7fe3eea80f376c651cd51aaa0cb84e9530d7975104
2. For Subscription - first check the Subscription plans available from the ***Get Subscription Plans*** API which will give all the currently available subscription plans. For execution, select the bronze plan (plan id:1) and pass that as a request to the ***Insert Inv Subscription Plan*** API.
3. For Goals - first check the possible Goals available from ***Get Investment Goals*** API that will provide all the supported Goals now available. Set the Goal Risk profile with the Build wealth goal (goal id: 1) and the Subscription Plan as in the previous point, with the monetary amount (in \$) as required.
4. For Monte-Carlo Simulation use the Investor model portfolio id as “1” and the relevant investment details. This will show the investment portfolio simulation.
5. For ***Get Inv Asset Allocation*** use model portfolio id as “6” as provided in the ***Goal risk profile*** API as in option “3” which will provide the asset allocation and asset allocation classes
6. For the Insert Portfolio Detail use the risk profile allotted id as “2” and model portfolio id as “6” as provided in the ***Goal risk profile*** API as in option “3”.
7. In ***Identity Verification Request, Bank-Link Request, Cash-Transfer Request, Cash-Allocation Request*** put in the relevant details as is required, all fields being self-explanatory.
8. Bank-List – please use “i”.
